“Sustainable Trails, Respect for People, Respect for Land”

### Respect and Responsibility

*Public lands are an incredible treasure. The privilege of use carries the responsibility to share the trails. Please do your part to make every trail interaction a positive one. Our goal is a community where respectful behavior is the norm. A word of thanks for courteous behavior goes a long ways.*

### Dog Owners

1. Scoop the poop. To do this, your dog must be in view at all times
2. Ask before allowing your dog to approach other people or dogs.
3. Your dog must be under voice control. This means your dog comes immediately upon command and stays by your side. Carry a leash if you have ANY doubt about control amidst distractions.
4. Please bring no more than 2 dogs per group - leash the extras.

### Cyclists

1. Cyclists must yield to other trail users. Downhill cyclists yield to uphill cyclists. When encountering horses, pull to the side of the trail and wait until they pass.
2. Announce your presence around blind corners and when approaching someone from behind.
3. The lower sections of the Cache Creek and Game Creek trails are SLOW zones. Expect to encounter others.

### Horse Riders

1. Know your horse. Easily spooked or inexperienced horses should not be ridden on multi-use trails.
2. Offer courteous passing instructions to others; don't assume others know what to do around horses.
3. Reduce trail wear: Don't ride when trails are muddy

### Hikers / Runners

1. Announce your presence when approaching from behind.
2. Yield to uphill hikers and all horse riders. Talking to riders lets horses know you are not a threat.
3. If you stop to visit or take a break, move to the side of the trail.

### Wildlife Encounters

Avoid surprising animals by making noise and staying alert especially on sections of trail with limited sight distance.

You must be able to tune into your surroundings. Headphones can severely limit your ability to hear animals or other people.

**DO NOT APPROACH ANIMALS.** Give them plenty of space. Moose often will not move out of the trail so you may need to turn around or go off trail around them.

Keep dogs close by your side to avoid having your dog bring an upset animal back to you or having a moose kick your dog.
